Dear friend

I have just returned from Norristown & Plymouth where Atty Kelly, D Hudson. E & H & others have been holding excellent meetings. They are doing good, getting the soil in good order & sowing the good seed. How sad to think that the most efficient of all will have so little time among us. Were she here & was she would be on her feet & would then defy the old fellow himself to trip again. I have just read your letter, no time to reply to them in full. am glad you interview Unity so much. I am distracted with the labor before us, all to be done at once & no time left to think how to do it. How ardently my soul desires that those who have the light may profit by it. may put it in a candlestick & that all may see. for the people are too good not to follow the truth, at least the great mass of them. Why say they to you, we need this, we need encouragement and help. not so much to show us the right as to compose us to be disentangled from the timid, wavering & deceived, the timid & crooked ones.

I. Earl Thelin to be our great evening Lecturer. I have more faith & much more of the mass of disinterested men in our section of the state. You ought to print what you have

132

I have spoken to L. Mott about the present to Mrs Collins the declines, preferring to assist in things more useful. You will not get much help here we are so poor & have so much to pay. our State Loc is great in debt. I send you with this some papers on which you will please state. The Meeting Slave. in part 2 American A.S. Society on the others most of the first.

Yours truly
